***Acknowledgement***

Receipt is acknowledged of the Response to Restriction Requirement filed September 22, 2006. Applicants elected, with traverse, to prosecute Species 1: claims 1-8. Claims 9-30 were withdrawn from consideration.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Keith Chanroo on November 9, 2006.

The application has been amended as follows:

Claims 9-30 have been canceled.

***Reasons for Allowance***

Claims 1-8 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Jansson, taken alone or in combination of other references, does not teach or fairly suggest a latch circuitry for high frequency operations comprising, among other things, peaked load circuitry coupled to at least one of the latch, the first, second and third buffers for producing a peaked response at a specified frequency of operation, the peaked load circuitry for increasing

impedance and a corresponding voltage level at the specified frequency to at least one of the latch, first and third buffers, respectively, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
